

LABORATORIES

I. National reference laboratories for food

Estonia	List of national reference laboratories (Regulation 882/2004/EC)	06/03/2017
Name	Contact details	Scope of Authority
Estonian Veterinary and Food Laboratory	✉ Kreutzwaldi 30, 51006 Tartu ☎ +372 738 6100 📠 +372 738 6102 @ info@vetlab.ee www: www.vetlab.ee	<i>Campylobacter</i>
		<i>Escherichia coli (E. coli)</i> , incl. verotoxigenic <i>E. coli</i>
		Coagulase-positive <i>Staphylococci</i> , incl. <i>Staphylococcus aureusaureus</i>
		<i>Listeria monocytogenes</i>
		Chemical elements in food of animal origin
		Antimicrobial resistance
		Parasites, in particular <i>Trichinella</i>
		Milk and milk products
		Zoonosis (salmonella) analysis and control
		Heavy metals in food
Estonian Veterinary and Food Laboratory	✉ Väike-Paala 3, 11415 Tallinn ☎ +372 603 5810 📠 +372 603 5811 @ tallinn@vetlab.ee www: www.vetlab.ee	Residues of veterinary medicines and contaminants in food of animal origin (except mycotoxins, carbadox, olaquinox and chemical elements)
Estonian Agricultural Research Centre	✉ Teaduse 4/6, Saku, 75501 Harjumaa ☎ +372 672 9137 📠 +372 672 9149 @ info@pmk.agri.ee www: www.pmk.agri.ee	Mycotoxins in food of animal origin
		Mycotoxins
		Residues of pesticides in fruits and vegetables
Residues of pesticides in cereals		
Estonian Health Board - Tartu laboratory	✉ Põllu 1a, 50303 Tartu ☎ +372 744 7422 📠 +372 744 7422 @ tartulabor@terviseamet.ee www: www.terviseamet.ee	Residues of pesticides in food of animal origin and in raw material with high fat content
		Polychlorinated biphenyls
		Polycyclic aromatic hydrocarbons
Estonian Health Board - central laboratory - the laboratory of chemistry	✉ Kotka 2, 11315 Tallinn ☎ +372 694 3600 @ kesklabor@terviseamet.ee www: www.terviseamet.ee	Residues of pesticides - single residue methods
		Materials and objects intended to come into contact with foodstuffs

II. National reference laboratories for animal health and live animals

Estonia	List of national reference laboratories (Legislation 64/432/EEC, 882/2004/EC, 92/66/EEC, 92/119/EEC, 2000/75/EC, 2001/89/EC, 2002/60/EC and 2005/94/EC)		06/03/2017
Name	Contact details	Legislation	Disease
Estonian Veterinary and Food Laboratory	✉ Kreutzwaldi 30, 51006 Tartu ☎ +372 738 6100 📠 +372 738 6102 @ info@vetlab.ee www: www.vetlab.ee	64/432/EEC	Brucellosis
		882/2004/EC	Equine diseases other than African horse sickness: - Dourine - Glanders - Infectious anaemia
		882/2004/EC	Fish diseases: - Infectious haematopoietic necrosis of fish (IHN) - Viral haemorrhagic septicaemia of salmonids (VHS)
		2000/75/EC	Bluetongue
		2005/94/EC	Avian influenza
		882/2004/EC	Rabies
		882/2004/EC	Bee health
		92/66/EEC	Newcastle disease
		2002/60/EC	African swine fever
		2001/89/EC	Classical swine fever
		92/119/EEC	Swine vesicular disease
		882/2004/EC	Foot-and-mouth disease

III. Other laboratories

Estonia	List of laboratories approved to perform the serological tests to monitor the effectiveness of rabies vaccines (Decision 2000/258/EC)		06/03/2017
Name	Contact details	Approval date	Remarks
Estonian Veterinary and Food Laboratory	✉ Kreutzwaldi 30, 51006 Tartu ☎ +372 738 6100 📠 +372 738 6102 @ info@vetlab.ee www: www.vetlab.ee	03/12/2008	-
